The Madeira sugar market continued steady with few arrivals. Arrivals continued to be large quantities during the early part of the month and the fact that Madeira dealers were anxious to clear their stocks at the best price during the month was an improvement in local prices. The market closed steady. The future is, however, very uncertain as according to reports on the frontier of a sugar crisis in the United Provinces and Bihar with a view to establishing peace. Madeira prices of North Indian sugar ranged from Rs. 20-0 to Rs. 21-0 per bag of 100 lbs. In December an average with Rs. 20-0 to Rs. 21-0 is, however, low. Upcoming market improved towards the month owing to better demand from consuming centres and all in all a month of North Indian sugar.
